This annotated listing of books is intended as a handy reference for anyone seeking an authoritative introduction to population and family planning information, as a world, a family, or an individual concern. The interested layperson, the inquisitive student, the busy professional and the librarian whose expertise is not in this area, will all find the books listed here an excellent "small library in family planning." With two noted exceptions, only titles in print at the time of this compilation are listed.

For each entry, the ISBN (International Standard Book Number) is provided if available. It provides a unique identifying number for each published edition of a title. The number preceding each reference represents the classification and call number of that book according to the Katharine Dexter McCormick Library system, a system designed specifically for family planning libraries. Further information about the KDM Classification system may be obtained by referring to the KDM Library publication, A FAMILY PLANNING LIBRARY MANUAL.

RELIGIOUS AND ETHICAL ASPECTS

6. BIOMEDICAL ETHICS: OPPOSING VIEWPOINTS, Julie S. Bach,
B3.5 ed. St. Paul. Minn.: Greenhaven Press, 1987. 216 p. \$6.95. ISBN 0-
b 89908-371-4. This anthology of essays presents a balance of op-
1987 posing views, placed back to back, on the complex and sensitive
ethical issues related to medicine. Covers genetic engineering, the
latest reproductive technologies, organ transplants, and ethical
standards for health care systems.

- 2.2 **FRONTIERS IN FERTILITY**, Betty Rothbart. New York: Planned
R6.5 Parenthood Federation of America, 1985. 68 p. \$5.00. A report on
f the Symposium on Human Fertility Regulation: Technological Fron-
1985 tiers and Their Implications, convened by Planned Parenthood on
Dec. 14 and 15, 1984, in New York City. This explores the many
complex controversial medical, legal, and ethical issues raised by
recent breakthroughs in new reproductive technologies. Specifically
addresses alternatives in contraception, gender selection, fetal
diagnosis and fetal therapy, maternal substance abuse and forced
cesarean section, late abortion and treatment of seriously ill neo-
nates.
6. **LOVE & SEX: A MODERN JEWISH PERSPECTIVE**, Robert
G6.6 Gordis. New York: Farrar, Straus & Giroux, 1978. 290 p. \$8.95.
I ISBN 0-374-19252-9. Discusses recent changes in sexual attitudes
1978 and practices, the instability of marriage and the incidence of di-
vorce, the morality and social utility of birth control and other con-
temporary issues, and stresses the historic Jewish teaching in the
areas of sex and love.
6. **MAKING BABIES: THE NEW SCIENCE AND ETHICS OF CON-
S5 CEPTION**, Peter Singer and Deane Wells. New York: Scribner's,
m 1985. 245 p. \$14.95. ISBN 0-684-18371-4. Addresses the ethical,
1985 moral and legal questions raised by the new technologies for inter-
fertil couples, such as in vitro fertilization, artificial insemination, em-
bryo freezing, surrogate motherhood. Discusses risks, screening,
fetal rights and future technological developments.
6. **PRINCIPLES OF BIOMEDICAL ETHICS**, 2nd ed., Tom L.
B4.7 Beauchamp and James F. Childress. New York: Oxford University
p Press, 1983. 382 p. \$24.95. ISBN 0-19-503285-3. \$15.95 (pbk).
1983 ISBN 0-19-503286-1. A systematic analysis of the moral principles
that should apply to biomedicine. A holistic approach is used to
examine the professional/patient relationship and ideals, virtues,
and integrity.
6. **RELIGION AND SEXUALITY: JUDAIC-CHRISTIAN VIEWPOINTS
H5.8 IN THE USA**, John M. Holland, ed. San Francisco: Association of
r Sexologists, 1981. 69 p. \$5.95. ISBN 0-939902-00-1. A collection of
1981 essays representing Jewish, Catholic and Protestant views on sexu-
ality. The concluding chapter provides a secular viewpoint and re-
sponse to these expositions.
6. **REPRODUCTIVE ETHICS**, Michael D. Bayles. Englewood Cliffs,
B4.6 N.J.: Prentice-Hall, 1984. 141 p. \$12.95. ISBN 0-13-773904-4. By
r the presentation of cases, some real and some fictional, the morality
1984 of human reproduction is considered in light of recent changes and
discoveries. Topics include: contraception and conception; genetic
choice; abortion; childbirth, defective newborns; and the reproduc-
tive technology of the future.
6. **SEXUAL MORALITY: A CATHOLIC PERSPECTIVE**, Philip S.
K3.5 Keane. New York: Paulist Press: 1978. 236 p. \$8.95. ISBN 0-8091-
s 2070-4. Maintaining that the Roman Catholic tradition does have a
1978 worthwhile viewpoint on human sexuality, the author surveys moral
perspectives rather than attempting to analyze thoroughly individual
sexual questions.

GENETICS

- 2.62.1 **GENETIC ENGINEERING: THREAT OR PROMISE?**, Laurence E.
K3 Karp. Chicago: Nelson-Hall, 1976. \$22.95. ISBN 0-88229-261-7.
g \$11.95 (pbk). ISBN 0-88229-460-1. Explains the principles of genet-
1976 ics, their role in diagnosis and therapy of disease, and their applica-
tion in reproductive engineering. Chapters cover counseling, eugen-
ics, screening, prenatal diagnosis, artificial insemination, sex deter-
mination and new reproductive technologies. Definitions of genetic
jargon facilitate the understanding of the engineering concepts
which are described in terms of their controversial aspects.
- 2.7 **REPRODUCTIVE GENETICS AND THE LAW**, Sherman Elias and
E4.2 George J. Annas. Chicago: Year Book Medical Publishers, 1987.
r 323 p. \$41.50. ISBN 0-8151-3062-7. Surveys the legal and ethical
1987 questions regarding genetics and new reproductive technologies
and their social implications. Includes chapters on the principles of
human genetics, genetics counseling, screening and prenatal diag-
nosis, and more. An extensive bibliography follows the scholarly but
readable work.
- 2.62.1 **THE TENTATIVE PREGNANCY: PRENATAL DIAGNOSIS AND**
R6 **THE FUTURE OF MOTHERHOOD**, Barbara Katz Rothman. New
t York: Viking, 1986. 274 p. \$17.95. ISBN 0-670-80841-5. Examines
1986 the impact of prenatal diagnosis upon mothers and motherhood,
drawing upon testimonies of over 120 women who experienced
amniocentesis. Describes genetic counseling, the decision-making
process, termination of pregnancy, and feelings of grief and loss that
may result.

HUMAN REPRODUCTION

- 2.6 **BIRTH WITHOUT VIOLENCE**, Frederick Leboyer. New York:
L3.8 Knopf, 1975. 114 p. \$14.95. ISBN 0-394-49581-0. The author pre-
b sents his unique yet simple techniques for easing the birth trauma
1975 and helping the new human being to start life without pain, confu-
